

The Interview PowerPoint

Interview your partner to find out the following...

- Their name?*
- Their birth date and age?*
- How many members in their family?*
- Where are they from originally?*
- What is their favorite color?*
- Do they have any pets?*
- What are three things they like to do in their spare time?*
- What is their favorite kind of food?*
- What is their biggest claim to fame?*
- What is the strangest thing that has happened to them?*
- What do they want to be when (IF-cough..cough) they grow up?*
- Any other detail that we need to know?*

Create a PowerPoint all about this person choosing fonts, ClipArt and a background that captures their personality best, (but keep it easy to read). Put their name on the title slide, and create ten slides to include the rest of the information. Keep it school appropriate, and keep in mind that we will be sharing these soon. You will need a placeholder slide for their photo and possibly another for a scanned image. The last slide should be a summary slide, something to leave the audience with—a thought, a favorite quote, etc. to tie up the whole thing.

Each slide should have word art, some text, and one ClipArt. Use a variety of fonts and styles. You must also include slide transitions and effects that make it interesting and fun to watch. Be creative and have fun! Please name it "Interview" and their name, and save it in your PowerPoint folder.
